

StrideOn Knee Walker

Don't let a lower leg injury
slow you down!

The StrideOn Knee Walker has been designed to increase your freedom of movement without pain, fatigue and discomfort as a result of lower leg injuries. A stable design and light weight frame, make the StrideOn Knee Walker easy to use and manoeuvre even in tight spaces like the home or office.

The StrideOn Knee Walker allows users to stand comfortably without stress to their hands, arms or shoulders and balances weight naturally on both legs. The padded cushion is comfortable to kneel on and allows you to keep your injured foot elevated and safe from further injury.

StrideOn lets you stay mobile and get on with your life.

StrideOn Knee Walker

Features

Height adjustable handle bars

Adjust the height of the handle bars for a perfect fit in seconds.

Suitable for all lower leg injuries

- ✓ Ruptured Achilles Tendon
- ✓ Broken Ankle or Foot
- ✓ Amputation of Lower Leg
- ✓ Sprained Ankle
- ✓ Gout
- ✓ Bunions
- ✓ Diabetic Ulcers
- ✓ Fractured Heel

Contoured knee pad

A deeply cushioned knee pad ensures a comfortable ride.

Height adjustable knee pad

Allows you to stand normally with your weight evenly distributed. Uniquely adjustable for either right or left leg injuries.

Brakes and safety

Dual purpose brakes are fitted to the StrideOn, enabling the user to slow down, with the added feature of a parking brake.

Ergonomic and light weight

The light weight aluminum frame is designed to give you total stability.

Guaranteed to carry your weight

This unit is designed to carry persons of up to 177 kg.

Made for indoors and outdoors

The StrideOn Knee Walker can turn around in its own length making it ideal for use in the tight confines of the home, shops or office.

Wheel and tyres

Five wheels for extra stability and a smooth ride. The non-marking tyres are kind to flooring and puncture free.

Fully collapsible

The StrideOn Knee Walker is compact and easy to fold, making it ideal for the car, or for storage when not in use.
